Suggested "Answer Key" (not ALL possible comparisons/contrasts)**

Unidentified Persons Case:

UP 6727

Not recognizable (insect/animal activity). Has dental, has large tattoo on back, healed cranial fx, thoracic vertebral fusion. No fingerprints. Has DNA. "Has had at least one child" (reason for this not indicated).

- 1) [MP 6993](#): No dental or DNA. Not enough information to exclude. Pursue additional data.
- 2) [MP 1213](#): MP has no dental but says, "missing several teeth", attempt to get more information. MP a bit taller than UP. MP has numerous and different tattoos from UP; likely can be excluded.
- 3) [MP 602](#): MP has tattoos on both legs, and can likely be excluded based on dental; get odontology consult.
- 4) [MP 620](#): Does not have prints, dental, or DNA. Cannot be excluded. Obtain additional information.
- 5) [MP 1770](#): MP has different tattoos. Has dental that needs to be followed up on and entered, has DNA for comparison. Likely will be an exclusion.
